	different from bacteria because they cannot live on their own.			
	a. Bacteria can live on their own.			
	b. Bacteria and viruses are not different.			
	c. Viruses are larger than bacteria.			
	d. Viruses are among the smallest bacteria.			
R	متنهای زیر را بخوانید و به سوالات آن پاسخ دهید.	3		
	Passage1: "Human Brain"			
	The human brain, helps us to remember, think, learn, solve problems, worry, laugh, and feel. The brain saves our			
	memories of the past. The brain has two kinds of memory, short-term and long-term memory. Our brain can			
	remember memories faster and more powerful than a supercomputer.			
	The human brain is divided into two halves, the right and the left. The right half controls the left side			
	movements of the body and the left half controls the right side.			
	If we want to have a healthy brain, we need to eat healthy food, do daily exercises, and have a good			
	sleep. Learning a foreign language, and solving math problems in our mind without any paper and pen			
	is also a good exercise for our brain.			
	is also a good excitese for our oralli.			
	62. Supercomputers are faster than the human brain. □ TRUE □ FALSE			
		+		
	صفحه ۴			

	63. The right half of the brain controls	
	 a. the right side of our body's movements b. the left side of our body's movements c. right and left side of our body's movements 	
	64. What should we do to have a healthy brain?	
	65. Is learning a foreign language good for our brain?	
S	Passage 2: "Tiger and woodpecker bird"	3
	There was a wild tiger in the forest. He was the strongest animal there. One day, he was feeling very hungry. He found an animal and hunted it.	
	When he started eating it, he felt pain in his throat. Then he realized that a small bone was stuck in his throat. He tried to remove the bone from his throat but he couldn't.	
	The tiger couldn't hunt and drink water anymore. He was very weak and hungry. When he fell on the ground with his mouth open, a woodpecker bird saw it.	
	The woodpecker asked, "Why are you lying on the ground with your mouth open?" the tiger answered, "There is a bone in my throat. I can't eat or drink. I might die".	
	The little bird said, "I will remove the bone from your throat but you should promise me to share your food." The tiger accepted. Soon the bird flew into the tiger's mouth and removed the bone.	
	The next day the tiger hunted an animal and the bird came to ask for his share. The tiger said "I am the strongest animal in the forest but you are the weakest. You should be thankful that I did not eat you little bird."	
	The bird got angry and hurt one of the tiger's eyes. It was really painful, and the tiger understood the power of the bird. The woodpecker said, "You should be thankful that I did not hurt your other eye."	
	This story teaches that every action has a result. If we are kind we will receive kindness.	
	66. The tiger was the strongest in the forest. ☐ TRUE ☐ FALSE 67. The woodpecker promised to share his food with the tiger. ☐ TRUE ☐ FALSE	
	68. What did the bird do when he got angry?	
	69. What is the message of this story?
