۴	<p>متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید.</p> <p>Both hearing and deaf people use some signs to communicate. For example, babies quickly point at the things they want. People often use a system of signs to communicate with those who speak in different languages.</p> <p>Sign languages are great. People who use sign language make shapes, called signs, with their hands and arms. They also move their bodies. Deaf people use signs for letters, words, or ideas. People who use sign language can communicate their thoughts and feelings using hand movements instead of talking.</p> <p>Just as there are many different spoken languages, there are also many different sign languages. There are more than 100 sign languages around the world.</p> <p>Like spoken languages, people can use sign languages to show all kinds of thoughts. People who use sign languages can talk about their actions, feelings, and ideas. One difference between sign and spoken language is that sign languages can <u>express</u> more than one meaning at a time.</p> <p>❖ True / False</p> <p>43) Hearing people use signs to communicate. a) True b) False</p> <p>44) Sign languages cannot show all kinds of thoughts. a) True b) False</p> <p>❖ Choose the best answer.</p> <p>45) Deaf people use to communicate with each other.</p> <p> a) hand movements b) spoken language</p> <p> c) letters and words d) written language</p> <p>46) The underlined word “express” is closest in meaning to</p> <p> a) show b) write c) speak d) imagine</p> <p>❖ Answer the following questions.</p> <p>47) How many sign languages are there in the world?</p> <p>48) What is one difference between sign and spoken language?</p>				۱۴
۴	<p>متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید.</p> <p>Rest and relaxation are just as important to our body as exercise and healthy eating. If you don't get enough of them you can make yourself ill. Your body is a bit like a battery. If it is not allowed to recharge itself through sleep and relaxation, it may stop working properly. Lack of sleep affects our ability to concentrate.</p> <p>When you dream, your brain may be clearing itself out and preparing itself for the next day's thinking. During your teens, you need at least eight hours' sleep a night. If you stay out late, try to go to bed early the next night. The effects of lack of sleep can build up over several days. When you are awake you make many demands on your mind and body. Your body needs a period of rest to repair itself and prevent it from getting worn out. During sleep, substances called hormones help body tissues grow and repair themselves. If you have troubles getting to sleep, try reading a book to calm your mind, listen to calming music or take some exercise and avoid tea, coffee or food before bedtime. Instead, a hot, milky drink may help you relax.</p> <p>❖ True / False</p> <p>49) To be healthy, you only need physical exercise and good food. a) True b) False</p> <p>50) To sleep less than eight hours every night is enough for a teenager. a) True b) False</p> <p>❖ Choose the best answer.</p> <p>51) Your body needs rest to</p> <p> a) repair itself b) take some exercise</p> <p> c) be awake d) get worn out</p> <p>52) Which of the followings <u>doesn't help</u> you get to sleep?</p> <p> a) reading a book b) taking exercise</p> <p> c) eating food d) listening to music</p> <p>❖ Answer the following questions.</p> <p>53) “Your body is a bit like a battery.” What does this mean?</p> <p>54) What shouldn't we drink before bedtime?</p>				۱۵
